

Portacube+

Highlights

Light, Simple, Comfortable

Portacube+ is an All-in-One portable unit for home-visit medical care equipped with a handpiece as the chair unit. It enables you to perform treatments at the visiting location with the same quality as usual.

The Portacube+ (standard suction type) features quiet and sufficient suction power, and the lineup also includes the Portacube+ SV (high suction type) with more powerful suction equivalent to that of chair units.

It is also equipped with a convenient LED light handpiece. With its various functions, it supports comfortable home visits.

Features

Light, Simple

Compact body that is easy to carry

The compact body is light and easy to carry, so it is comfortable to move indoors or load into the car.

Easy Setup and Cleanup

The easy and quick setup and cleanup at the visiting location ensure that valuable time is not wasted.

The handpiece can be hung on the case lid, allowing for installation even in small spaces.

Support for comfortable medical treatment

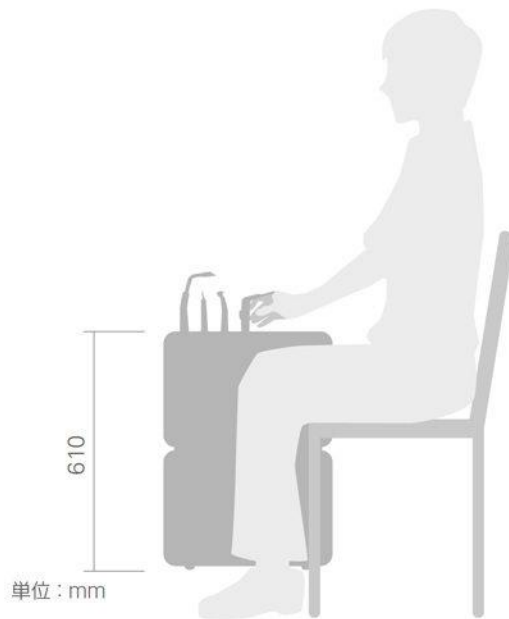

Automatic Handpiece Switching

The handpiece automatically switches upon pickup, allowing usage with just a step on the foot controller. No button operation is needed during switching.

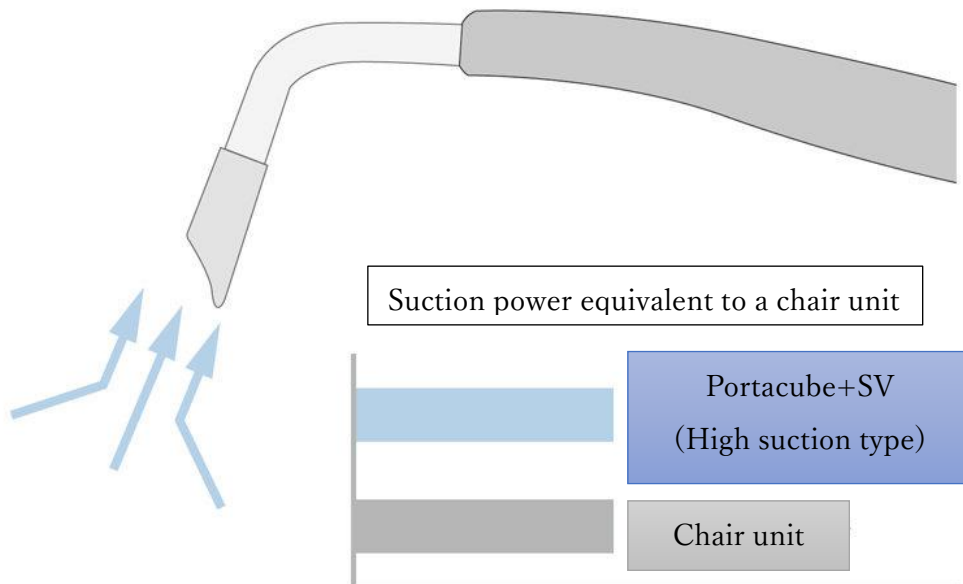

Automatic LED Light Activation

The LED light handpiece lights up automatically when picked up. It can be used for a wide range of purposes, such as oral observation and denture adjustment.

Natural Pickup Position

The high position of the handpiece holder allows comfortable pickup even when placed on the floor.

Strong Suction Power (Portacube + SV)

The Portacube + SV (high suction type) supports stress-free and comfortable medical treatment with strong suction power equivalent to that of chair units.

Standard equipment

Micromotor Torx

TR-S3-LD (with LED light)

Ultrasonic Scaler Solfy

(F type or T type)

(With LED light)

Three-way syringe WS12N

Vacuum syringe

Accessories

<p>TORQUE Tech (ST-DH, CA-DC-O, CA-5IF-O) We offer motor attachments designed with careful consideration in all aspects for "operability", "safety" and "durability".</p>	
<p>Three-way syringe WS100 LD (With LED light)</p>	
<p>Three-way syringe WS100</p>	
<p>Multipurpose holder It is possible to attach commercially available bags, etc. and use it as a dust box.</p>	

Specifications

Product name	Portacube+	
Model:	HLU-P	
Power supply voltage:	AC 100V 50/60Hz	
Power consumption:	5A	
Dimensions:	W460 x D290 x H320 mm	
Mass:	9.8kg (excluding handpieces)	
General name:	Portable dental unit	
Classification of equipment:	Controlled medical equipment (Class II) Specific maintenance and controlled medical devices	
Medical device certification number:	301ACBZX00008000	
Manufactured by :	J. Morita Manufacturing Corporation	
Standard equipment :	Portacube + (Standard Suction Type)	Portacube + SV (High Suction Type)
	Standard suction vacuum motor	High suction vacuum motor
	Small compressor	
	Micromotor Torx TR-S3-LD (With LED light)	
	Ultra Sonic Scale Solfy (Built-in) (With LED light) Type F or Type T	
	Three-way syringe WS12-N	
	Vacuum syringe	
	Shoulder belt	
Accessories :	Torque Tech (ST-DH, CA-DC-O, CA-5IF-O, Various other contra-angles)	
	Three-way syringe WS100LD (With LED light)	
	Three-way syringe WS100	
	Multipurpose holder
